## SECTION II: READING

### PART A. Questions 8-13

Read the following article taken from a magazine about youth crime.

Circle the best choice (A, B, C or D) for each question.

#### Youth Crime

[P1] Until two years ago, Clearing, Illinois was a peaceful suburb of Chicago. However, later on, it became a rather troubled and noisy place. The residents got scared when armed teenagers shouting at passing cars and giving gang signals appeared on streets. Then, **they** noticed a series of burglaries and graffiti messages on storefronts. By the time local authorities realized they had a gang problem, it was too late. Last December, two 13-year-old girls were shot outside their school as they sat in a car with two members of a local gang, the Ridgeway Lords.

[P2] Nearly all 50 states have recently passed laws that allow youths aged 14-17 to be questioned in court as adults. In about 25 states they have passed laws to punish parents for their children's behaviour. And in 146 of the nation's cities, they have imposed curfews to reduce youth violence, which doesn't allow young people to go out at night. When you look at the spectacular rise of violent crime among young people recently, it's easy to understand the concern. Over the past ten years, adult murders in the US have reduced, while murder rates have **surged** for youths between 14-17.

[P3] For young criminals who aren't sent to prison, the punishments differ: some perform community service, others are placed in job training programs, still others are sent to youth prisons. But the Republicans in Congress want to change a basic principle of juvenile justice: placing young criminals away from adult criminals in prison. The reasons are partly financial -to reduce the cost of having separate prisons for young people-, and partly psychological -to end what Republicans consider as society's overly protective attitude towards young criminals.

8. Which of the following crimes was **NOT** committed in Clearing, Illinois?

- A) Writing graffiti
- B) Theft
- C) Murder

- B) there are laws to control youth crime
- C) the young can't go out after a specific time
- D) people aged 14-17 can't be judged at court

11. In *Paragraph 2*, "**surge**" is closest in meaning to \_\_\_\_\_.

- A) affect
- B) change
- C) rise
- D) decrease

12. Which of the following is **NOT** a punishment for young criminals?

- A) Getting a prison sentence

#### The End of an Era

In January 2016, shoppers in Britain lost an old friend. Woolworths, a shop found in almost every town in <sup>14</sup> \_\_\_\_\_ country, closed its doors for the last time, almost one hundred years after they <sup>15</sup> \_\_\_\_\_ up in Liverpool. Woolworths was a <sup>16</sup> \_\_\_\_\_; they sold everything from sweets and toys to clothes, DVDs and things for the house. Perhaps this was the problem. Everything they sold could be bought more cheaply in supermarkets or online. Also, <sup>17</sup> \_\_\_\_\_ selling so many different things, they didn't offer much choice of any of them.

The closing of Woolworths wasn't a huge surprise <sup>18</sup> \_\_\_\_\_. One of their biggest selling items was music CDs, but people didn't buy them anymore. <sup>19</sup> \_\_\_\_\_ people preferred to listen to music on online platforms, so their sales fell. Also, big shopping centres <sup>20</sup> \_\_\_\_\_ around, so that affected Woolworths' sales. In the first six months of 2015, Woolworths lost almost £200 million, and it was obvious that they couldn't survive, so they decided to get out of <sup>21</sup> \_\_\_\_\_ in November 2015. All the shops started to sell everything at bargain prices. On December 5<sup>th</sup>, they had the most successful day in their history, taking £27 million but it was <sup>22</sup> \_\_\_\_\_ late to save them. They closed the last shops on January 6<sup>th</sup>, 2016.
